

Standard and tailor made special condensing units

Single, tandem and trio semi hermetic condensing units.

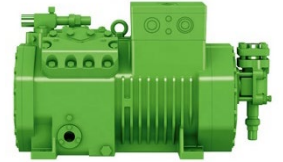

Units are equipped with **Bitzer® Ecoline Semi Hermetic compressors.**

Standard models from 0.5HP up to 18HP with single compressor.

Standard models from 6HP up to 36HP with two compressors.

Up to 120HP units with 3 compressors.

R134a, R404/507 as standard (other refrigerants on demand).

Standard accessories:

2.1mm fin spacing condenser.

EBM fan motors.

Muffler, vibration eliminator, oil separator, filter dryer, manometers and sight glass as standard.

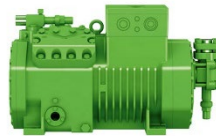

Liquid receiver and suction accumulator.

High and low pressure switches.

Fan speed controller.

Fully equipped electrical box with Schneider accessories.

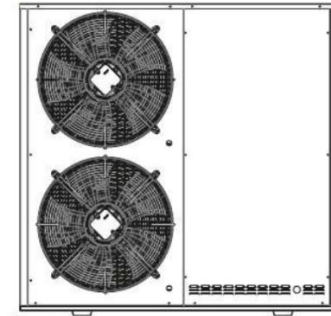

- Electronic Oil level switch as standard for 2,3 compressors units.
- **Danfoss®** AK-PC compressor management controller as standard for 2,3 compressors unit (on demand for single compressor unit)
- **Danfoss®** FC-103 frequency inverter on request.
- BPHE water cooled condenser on request.
